New York, NY (February 14, 2018)—In 2016, guitar legend **Ritchie Blackmore** made his much-anticipated return to rock music, with a new line-up of his landmark band **Rainbow**. They delivered three powerhouse concerts in the UK in 2017, which are now captured on **Ritchie Blackmore's Rainbow: Memories In Rock II** - to be released on **April 6** as a **2CD+DVD set, vinyl, and digital formats** via **Minstrel Hall Music**.

**Memories In Rock II** boasts two CDs of live performances, and a DVD with bonus interview footage only. The setlist includes classic tracks drawing from both **Deep Purple** and **Rainbow**, such as "Spotlight Kid," "I Surrender," "Mistreated," "Man On The Silver Mountain / Women From Tokyo," "Perfect Strangers," "Black Night," and "Smoke On The Water." Additionally, the set includes **Rainbow's first new single since 1996: "Waiting For A Sign,"** with **Ronnie Romero** on vocals. This will be released as a digital single on **March 16**.

Complementing the live material, *Memories In Rock II* delivers a backstage pass via a DVD of exclusive interviews with the new line-up – **Ritchie Blackmore**, **Ronnie Romero**, **Jens Johansson** (keyboards), **Bob Nouveau** (bass), **Dave Keith** (drums), **Lady Lynn** (backing vocals) and **Candice Night** (backing vocals, as well as frontwoman of Renaissance rock band **Blackmore's Night**). Rounding out the interviews are the crew members that brought these shows to life.

Fans have waited for the return of **Rainbow** – a promise that these shows delivered in spades. **Blackmore's** blazing fret work and soaring solos once again proved why he remains one of the most respected and celebrated guitarists of all time.
